Sustainable Materials for Net Zero Asphalt Pavements

An invitation to connect, collaborate, and build a greener future

Embassy of Estonia in Stockholm together with Estonian cleantech innovator Fibenol are pleased to invite you to an event that brings together cities, regions, architects, landscape architects, sustainability officials, road sector professionals, and others interested in advancing sustainable infrastructure with the aim of developing collaboration and introducing the innovative sustainable solutions in road pavements.

This event will serve as a platform for sharing experiences and showcasing collaboration across the value chain. Together, we will explore how innovative biomaterials and sustainable practices can drive progress towards Net Zero asphalt pavements—helping cities and communities reach their ambitious climate goals for 2025 and beyond.

Date and time: 20th May 2025 14:00–16:00

Venue: Embassy of Estonia in Stockholm ([Tyrgatan 3, 114 27 Stockholm, Sweden](#))

Agenda:

14:00–14:20 Arrival & coffee

14:20–14:30 Opening remarks by **H.E. Toomas Lukk**, Ambassador of Estonia to Sweden

14:30–14:50 *Sustainable Solutions for Roads and Pavements – What Science Tells Us*

Speaker: **Viveca Wallqvist**, Senior Scientist, RISE

14:50–15:20 *Net Zero Road Project in Stockholm: Low-Carbon Footprint Biomaterials in Asphalt Pavements*

Speakers: **Mattias Andersson**, Svevia, and **Reet Nõmmoja**, Fibenol

15:20–16:00 Ambassador reception, networking with stakeholders

[Fibenol](#) is an Estonian cleantech innovator transforming wood residues into high-value biomaterials. Their LIGNOVA™ lignin helps replace fossil-based chemicals in materials and chemical industries—supporting the shift to Net Zero with certified, sustainable alternatives.

Please **RSVP by 12 May** by e-mail rsvp.stockholm@mfa.ee
